## Study grants

CampusBourses

In addition to the funding that can be provided from their home country, international students enrolled individually can be eligible for grants under certain conditions.

## Campusbourses, directory of grants programmes

Proposed by CampusFrance, CampusBourses lists all the financial aid that international students can apply for, allowing them to search for funding according to their student profile. The directory lists grant programmes proposed by government organisations, local authorities, companies, trusts and higher education institutions.
